Cantex Mine Development Corp.

Notes to the condensed consolidated interim financial statements

Three and nine months April 30, 2014

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

1. Nature and continuance of operations

Cantex Mine Development Corp. (“Cantex” or “the Company”) is incorporated under the laws of the Province of Alberta and its principal business activity is the exploration and development of its mineral properties, either directly or indirectly through joint exploration and development ventures and other arrangements. The Company’s common shares are listed on the TSX Venture Exchange under the symbol “CD”.

The head office, principal address and registered and records office of the Company are located at 203-1634 Harvey Avenue, Kelowna, BC V1Y 6G2.

The Company has not yet determined whether any of its mineral properties contain economically recoverable mineral reserves. Although the Company has taken steps to verify title to the mineral properties in which it, through its subsidiary, has an interest, in accordance with industry standards for the stage of exploration of such properties, those procedures do not guarantee the Company’s title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

These condensed consolidated interim financial statements have been prepared by management on a going concern basis, which assumes the Company will continue in operations for the foreseeable future and be able to realize its assets and discharge its liabilities in the normal course of business. The ability of the Company to continue operations is dependent upon the existence of economically recoverable reserves, successful development of the Company’s mineral properties, continued receipt of financial support, completion of equity financings, and generating profitable operations in the future. It is not possible to predict whether economically recoverable reserves exist, the Company’s financing efforts will be successful, or the Company will attain profitable level of operations.

As at April 30, 2014, the Company has incurred cumulative losses of \$51,804,988 (July 31, 2013 - \$50,271,786) and has a working capital deficiency of \$1,660,082 (July 31, 2013 - \$114,169). These above conditions may raise significant doubt regarding the Company’s ability to continue as a going concern. Additional financing will be required for the Company to continue operations. Should the Company be unable to realize its assets and discharge its liabilities in the normal course of business, adjustments would be necessary in the carrying values of assets and liabilities.

Cantex Mine Development Corp.

Notes to the condensed consolidated interim financial statements

Three and nine months April 30, 2014

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

2. Basis of presentation

(a) *Statement of compliance*

These condensed consolidated interim financial statements are unaudited and have been prepared in accordance with IAS 34, Interim Financial Reporting (“IAS 34”) using accounting policies consistent with the International Financial Reporting Standards (“IFRS”). The significant accounting policies followed are the same as those set out in Note 3 to the audited consolidated financial statements for the year ended July 31, 2013, except as noted below.

These condensed consolidated interim financial statements do not include all the necessary annual disclosure in accordance with IFRS and should be read in conjunction with the Company's 2013 annual consolidated financial statements.

These condensed consolidated interim financial statements were approved for issue by the Audit Committee on June 23, 2014.

(b) *Basis of presentation*

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Cantex Gold Corp.

Name of Subsidiary	Country of Incorporation	Proportion of Ownership Interest	
		April 30, 2014	April 30, 2013
Cantex Gold Corp.	USA	100%	100%

(c) *Adoption of new and revised standards and interpretations*

At the date of authorization of these condensed consolidated interim financial statements, the IASB and IFRIC has issued the following new and revised Standards and Interpretations:

- (i) The following Standards are effective for annual periods beginning on or after January 1, 2013 and have been adopted by the Company. There has been no impact on the financial statements in regards to the adoption of these standards.

IFRS 7 Financial Instruments requires disclosure of information about the significant of financial instruments to an entity, and the nature and extent of risks from those financial instruments, both in qualitative and quantitative terms.

IFRS 10 Consolidated Financial Statements will replace existing guidance on consolidation in IAS 27 Consolidated and Separate Financial Statements, and SIC 12 Consolidation – Special Purpose Entities.

IFRS 11 Joint Arrangements will replace IAS 31 Interests in Joint Ventures, and SIC 13 Jointly Controlled Entities – Non-monetary Contributions by Venturers.

Cantex Mine Development Corp.

Notes to the condensed consolidated interim financial statements

Three and nine months April 30, 2014

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

2. Basis of presentation (continued)

(c) *Adoption of new and revised standards and interpretations (continued)*

IFRS 12 Disclosure of Interests in Other Entities is the new Standard for disclosure requirements for all forms of interests in other entities, including subsidiaries, joint arrangements, associates and unconsolidated structured entities.

IFRS 13 Fair Value Measurement was issued to remedy the inconsistencies in the requirements for measuring fair value and for disclosing information about fair value measurement in various current IFRSs.

IAS 16 Property, Plant and Equipment outlines the accounting treatment for most types of property, plant and equipment. Property, plant and equipment is initially measured at its cost, subsequently measured either using a cost or revaluation model, and depreciated so that its depreciable amount is allocated on a systematic basis over its useful life.

IAS 27 Separate Financial Statements has been updated to require an entity presenting separate financial statements to account for those investments at cost or in accordance with IFRS 9 Financial Instruments.

IAS 28 Investments in Associates and Joint Ventures has been revised and it is to be applied by all entities that are investors with joint control of, or significant influence over, an investee.

IAS 32 Financial Instruments: Presentation has been amended to clarify the treatment of income tax relating to distributions to holders of an equity instrument and to transaction costs of an equity transaction.

- (ii) The following Standard is effective for annual periods beginning on or after January 1, 2014 and is not yet effective for the relevant reporting periods. The Company is assessing the impact of this standard.

Amended IAS 32 Financial Instruments: Presentation has been updated to clarify certain aspects because of diversity in application of the requirements on offsetting, focused on four main areas:

- the meaning of 'currently has a legally enforceable right of set-off';
- the application of simultaneous realization and settlement
- the offsetting of collateral amounts
- the unit of account for applying the offsetting requirements.

- (iii) The following Standard is effective for annual periods beginning on or after January 1, 2015 and is not yet effective for the relevant periods; however, the effective date has been deferred. The Company is assessing the impact of this standard.

IFRS 9 Financial Instruments ("IFRS 9") was issued to replace IAS 39, Financial Instruments: Recognition and Measurement. IFRS 9 addresses the classification and measurement of financial assets. IFRS 9 was subsequently reissued in October 2010, incorporating new requirements on accounting for financial liabilities.

Cantex Mine Development Corp.

Notes to the condensed consolidated interim financial statements

Three and nine months April 30, 2014

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

3. Trade and other receivables

	April 30, 2014	July 31, 2013
	\$	\$
GST/HST receivables	25,763	30,043
Third party receivables	735,010	86,632
Prepaid expenses	4,471	1,788
	765,244	118,463

Third party receivables consist mainly of mineral property recoveries due from partners.

4. Mineral property interests

Title to mining properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many mining properties. The Company has diligently investigated rights of ownership of all of the mineral concessions in which it has an interest and, to the best of its knowledge, all agreements relating to such ownership rights are in good standing. However, this should not be construed as a guarantee of title. The concessions may be subject to prior claims, agreements or transfers and rights of ownership may be affected by undetected defects.

Cantex Mine Development Corp.

Notes to the condensed consolidated interim financial statements

Three and nine months April 30, 2014

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

4. Mineral property interests (continued)

(a) *Yemen program*

(i) *Exploration license*

During 1996, the Company was granted a 52,000 square kilometer ("km²") prospecting permit in the Republic of Yemen. With continued exploration, the Company was able to focus its efforts on progressively smaller areas that demonstrated the potential for economic mineralization. The Company has held an exploration license granting exclusive exploration rights and the right to obtain an exploration contract since 1999. Under the terms of the exploration contract, the Government of the Republic of Yemen has the right to offer to acquire, on commercial terms, an undivided interest of up to 49% in this exploration license. In this event, the Company's interest (and that of any partner) would be diluted proportionately.

In January 2012, the exploration license containing the Al Hariqah project was renewed under the new Yemeni mining code. The new license is valid for an initial four year period and can be renewed for two further four year periods. In addition, the license has been expanded from its original 71 km² to 956 km². The new license area covers a trend of gold anomalies discovered by Cantex's regional exploration program which could reflect additional mineralization similar to that found at Al Hariqah.

(ii) *Agreement with WCP Resources Ltd.*

In December 2011, the Company entered into an agreement with WCP Resources Ltd ("WCP") wherein WCP can earn an interest in the Al Hariqah gold project by funding advanced exploration and mine development to commercial production. The staged earn-in agreement allows WCP to earn up to a 70% interest in the project after funding a minimum of US\$30,000,000 over a seven year period.

In February 2014, WCP exercised an option to commence the earn-in to the Project after which they may earn an initial 40% interest in the project by expending US\$5,000,000 within two years. A further expenditure of US\$10,000,000 within the following two years would increase its interest in the project to 50% and a further US\$15,000,000 within the following three years would increase its interest in the Project to 70%. In circumstances where WCP earn a 70% interest in the project and a decision to mine the project is reached, WCP will carry Cantex's portion of mine construction costs to initial production via a loan at an agreed/market interest rate. The loan would be repaid from the first 80% of profits earned by Cantex.

(b) *Nevada program*

In 2004, the Company acquired a 100% interest in ten claim groups of gold exploration claims in the state of Nevada from Sovereign Gold Corp. ("Sovereign") for consideration of US\$125,000, 3,000,000 common shares and a promissory note to Sovereign for US\$33,000 for reimbursement of Sovereign's costs of maintaining the claims in good standing. The Company has retained six of the claim groups comprised of 140 claims over 1,171 hectares.

Reclamation bonds of \$11,885 (July 31, 2013 - \$11,142) have been posted with the State of Nevada.

Cantex Mine Development Corp.

Notes to the condensed consolidated interim financial statements

Three and nine months April 30, 2014

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

4. Mineral property interests (continued)

(c) Yukon program

In February 2011, the Company acquired, by staking, two claim blocks located approximately 100 km northeast of Mayo, Yukon, Canada. A 38 claim block has been staked adjacent to a new belt of gold mineralization recently discovered in the area. In addition, a 48 claim block has been staked over the source area of several arsenic anomalies as reported on the government stream sediment maps.

In September 2012, the Company acquired, by staking, an additional eight claim blocks totaling 1,380 claims covering 28,000 hectares.

6. Related party transactions and balances

During the nine month periods ended April 30, 2014 and 2013, the Company had related party transactions with the following companies related by way of common directors or shareholders:

- C.F. Mineral Research Ltd. (“CF Minerals”) – a private company owned by Cantex Chairman, Charles Fipke. CF Minerals provides heavy mineral geochemistry services to the Company.
- Kel-Ex Development Ltd. (“Kel-Ex”) - a private company owned by Cantex Chairman, Charles Fipke. Kel-Ex provides administration, payroll and office services to the Company.
- Element 29 Ventures Ltd. (“Element 29”) - a private company owned by Cantex CEO, Chad Ulansky. Element 29 provides geological consulting services to the Company.
- Metalex Ventures Ltd. (“Metalex”) - a publicly listed company with common directors and management. Metalex shares office space with Cantex and thus have certain shared expenditures which get re-billed on a cost-recovery basis.

(a) Related party expenses

The Company’s related party expenses included in Exploration expenses, net of expenses recovered, consist of the following amounts:

	Three months ended April 30,		Nine months ended April 30,	
	2014	2013	2014	2013
	\$	\$	\$	\$
Laboratory and mineralogical costs	-	103,683	331,741	451,438
Geological consulting fees	31,591	27,798	147,484	134,510
Shared field expenditures	1,293	-	13,576	74,355
Shared office and administrative costs	15,744	7,393	54,238	27,883
	48,628	138,874	547,039	688,186

The Company’s related party expenses relate to the following related parties:

	Three months ended April 30,		Nine months ended April 30,	
	2014	2013	2014	2013
	\$	\$	\$	\$
C.F. Mineral Research Ltd.	-	103,683	331,741	451,438

(Unaudited – Prepared by Management)

(Expressed in Canadian dollars)

6. Related party transactions and balances (continued)

(b) Related party liabilities

The liabilities of the Company include the following amounts due to related parties, net of amounts receivable from related parties:

	April 30, 2014	July 31 2013
	\$	\$
C.F. Mineral Research Ltd.	560,865	560,865
Kel-Ex Development Ltd.	2,950,449	2,812,754
Element 29 Ventures Ltd.	9,529	98,806
Metalex Ventures Ltd.	5,448	25,042
	3,526,291	3,497,467

(c) Key management personnel compensation

The remuneration of directors and key management personnel is as follows:

	Three months ended		Nine months ended	
	April 30,		April 30,	
	2014	2013	2014	2013
	\$	\$	\$	\$
Share-based compensation ⁽¹⁾	-	58,426	-	58,426
Wages and benefits ⁽²⁾	13,457	20,208	67,897	84,108
Total	13,457	78,634	67,897	142,534

(1) Share-based compensation is the fair value of options granted to directors and management personnel during the year.

(2) Wages and benefits include amounts paid or accrued for geological consulting fees and payroll costs.

7. Commitments

The Company is committed to minimum future lease payments for office premises through to March, 2016 as follows:

Fiscal year ending July 31, 2014	\$ 2,962
Fiscal year ending July 31, 2015	\$11,846
Fiscal year ending July 31, 2016	\$ 7,893

Cantex Mine Development Corp.

8. Share capital and reserves

(a) Authorized share capital

The authorized share capital of the Company is an unlimited number of common shares without par value. All issued shares are fully paid.

(b) Stock option plan

The Company, in accordance with its shareholder approved stock option plan, is authorized to grant options to directors, officers, employees and consultants, to acquire up to 5% of the aggregate issued and outstanding common shares. The exercise price of the options issued under the plan is determined by the Board of Directors at the time the options are granted. The options vest immediately upon grant, unless otherwise determined by the Board of Directors or Exchange regulations, and are exercisable for a period of up to ten years from the date of grant.

Details are as follows:

	Stock Options		Warrants	
	Number	Weighted Average Exercise price	Number	Weighted Average Exercise price
		\$		\$
Outstanding, July 31, 2012	775,167	1.95	566,667	1.50
Granted	462,667	1.50	5,854,545	0.15
Expired	(255,167)	2.98	-	-
Outstanding, July 31, 2013	982,667	1.50	6,421,212	0.13
Expired	(46,667)	1.50		
Outstanding, April 30, 2014	936,000	1.50	6,421,212	0.27

The following stock options and warrants were outstanding at April 30, 2014:

	Number	Exercise price	Expiry date
		\$	
Options	500,000	1.50	January 28, 2019
	436,000	1.50	March 21, 2019

9. Segmented information

The Company manages its business as a single operating segment: mineral exploration. The Company operates in both foreign and domestic countries as follows:

	Nine months ended April 30,	
	2014	2013
	\$	\$
Net loss		
Canada	1,542,467	1,589,589
Yemen	(20,005)	53,415
United States of America	28,309	23,855
	1,550,771	1,666,859

	April 30,	July 31,
	2014	2013
	\$	\$
Property and equipment		
Canada	7,334	10,083
Yemen	5,069	7,921
	12,403	18,004

10. Capital management

The Company includes equity, comprising of issued common shares, reserves and deficit, in the definition of capital.

The Company's objectives when managing capital is to maintain its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders.

The Company expects its current capital resources will not be sufficient to complete its exploration and development plans and operations through its current operating period and it will be required to raise additional funds through future equity issuances or secure other financing. To date, the Company has relied on advances from related parties to fund its operations and exploration activities and expects continued financial support through the next twelve months. The Company is currently not subject to externally imposed capital requirements. The Company does not pay out dividends. The Company's investment policy is to invest its short-term excess cash in secure deposits in large Canadian financial institutions.

The Company's primary objective with respect to capital management is to ensure adequate liquid capital resources are in place to fund the exploration and development of its mineral properties while maintaining its ongoing operations. To secure the additional capital to pursue these plans, the Company may attempt to raise additional funds through the issuance of debt and or equity.

11. Financial instruments and risk management

As at April 30, 2014, the Company's financial instruments are cash, trade and other receivables, trade and other payables and amounts due to related parties. The amounts reflected in the balance sheet are carrying amounts and approximate their fair values due to their short-term nature. These financial instruments are classified as follows:

- Cash is classified as loans and receivables and is measured on the statement of financial position at fair value;
- Trade and other receivables are classified as loans and receivables and are initially measured at fair value and subsequent periodic revaluations are recorded at amortized cost using the effective interest method; and
- Trade and other payables and amounts due to related parties are classified as other liabilities and are initially measured at fair value and subsequent periodic revaluations are recorded at amortized cost using the effective interest rate method.

The Company's financial instruments are exposed to certain financial risks, including currency, credit, liquidity and price risk.

Fair value is defined as the price what would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2 – Quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liabilities.

Level 3 – Prices or valuation techniques that require inputs that are both significant to fair value measurement and unobservable (supported by little or no market activity).

The Company has no financial instruments measured at the fair value hierarchy for the periods presented.

Currency risk - The Company is exposed to the financial risk related to the fluctuation of foreign exchange rates. The Company operates in Yemen and as such, a portion of its expenses are incurred in the local currency and US dollars. A significant change in the currency exchange rates could have an effect on the Company's results of operations, financial position or cash flows. The Company has not hedged its exposure to currency fluctuations.

At April 30, 2014, the Company is exposed to currency risk relating to funds held in U.S. dollars and Yemen rials with a value of approximately \$332,540 (July 31, 2013: \$388,444). The impact of a 5% change in the U.S. dollar and Yemen rials exchange rate to the Canadian dollar would not be material.

11. Financial instruments and risk management (continued)

Credit risk - Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The majority of the Company's cash is held through a large Canadian financial institution with a high investment grade rating.

At April 30, 2014, the Company has no financial assets that are past due or impaired due to credit risk defaults. The Company's receivables consist mainly of mineral property recoveries due from partners and HST receivable due from the Federal Government of Canada. The Company is subject to the risk that its partners will default on amounts owing for their portion of exploration expenditures. The Company's maximum credit risk at April 30, 2014 is \$735,010 (the Company has subsequently received all of this balance). Any such amounts defaulted would dilute that partners' interest in the exploration joint venture and would require the Company to pick up the proportionate share of future exploration expenditures.

Liquidity risk - Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company manages its liquidity risk through the management of its capital structure and financial leverage as outlined in Note 10 to the consolidated financial statements.

Trade and other payables are generally due within 30 days. No significant amounts are past due.

Amounts due to related parties have no fixed terms of repayment, are unsecured and are non-interest bearing.

Price risk - The Company is exposed to price risk with respect to commodity prices. The Company closely monitors commodity prices to determine the appropriate course of action to be taken by the Company.

12. Contingencies

The Company is from time to time involved in various claims, legal proceedings and tax assessments arising in the ordinary course of business. The Company does not believe that adverse decisions in any pending or threatened proceedings related to any matter, or any amount which it may be required to pay by reason thereof, will have a material effect on the financial conditions or future results of operations of the Company.
